

HELPING TO MAKE SOUTHERN MIDDLE TENNESSEE HEALTHIER

At Southern Tennessee Medical Center / Emerald-Hodgson Hospital, our goal is to deliver the best healthcare available in the Southern Middle Tennessee area as we seek to make our community healthier. With the help of dedicated physicians, employees, volunteers and board members, along with your continued support and encouragement, we continue to move forward.

Delivering quality healthcare is a big part of the contribution we make. But there are many other ways a hospital can make a positive impact on the community it serves. Here are a few of the other ways we are making a difference.

Nearly \$3.6 million in capital improvements

Last year, we completed significant upgrades to our Imaging Services Department, which included a new Nuclear Medicine camera, Digital Mammography equipment and upgrades to our MRI scanner. In all in 2008, we invested approximately \$3.6 million in our facility which, in addition to the Imaging Department equipment, included technology replacement, information technology additions/updates, and routine facility upkeep and maintenance.

In 2009 we will begin construction on a new fixed-base Cardiac Catheterization Laboratory.

Contributing to our local tax base

Last year, our facilities paid \$509,000 in taxes that have helped to support our city, county and state. This included sales taxes as well as property taxes. These dollars help to support local

schools, development of roads, recruitment of business and industry, and other needed services.

Helping those in need

Southern Tennessee Medical Center / Emerald-Hodgson Hospital provided over \$76.8 million in uncompensated care last year, which included the amounts not covered by government-sponsored programs such as Medicare and Medicaid. This amount includes \$6.5 million for charity care and bad debts, incurred as we cared for many people without sufficient resources.

Adding new physicians

During the past year, Southern Tennessee Medical Center / Emerald-Hodgson Hospital, added several new physicians to our highly respected medical staff, including specialists in cardiology, internal medicine and obstetrics/gynecology.

One of our community's major employers

With an annual payroll of \$30.4 million and more than 600 employees, Southern Tennessee Medical Center / Emerald-Hodgson Hospital is one of the largest employers in the region.

We thank you for choosing us for your healthcare needs. With your support, together we can make an even greater hospital and a healthier community.
