

HELPING TO MAKE THE SOUTHERN VIRGINIA AREA HEALTHIER

At Memorial Hospital, our goal is to deliver the best healthcare available in the greater South Virginia area as we seek to make our community healthier. With the help of dedicated physicians, employees, volunteers and board members, along with your continued support and encouragement, we continue to move forward.

Delivering quality healthcare is a big part of the contribution we make. But there are many other ways a hospital can make a positive impact on the community it serves. Here are a few of the other ways we are making a difference.

Over \$5.2 million in capital improvements

In 2008, we invested over \$5.2 million in our facility which included technology replacement, information technology additions/updates, and routine facility upkeep and maintenance.

Contributing to our local tax base

Last year, Memorial Hospital paid over \$1.4 million in taxes that have helped to support our city, county and state. This included sales taxes as well as property taxes. These dollars help to support local schools, development of roads, recruitment of business and industry, and other needed services.

Helping those in need

Memorial Hospital provided over \$137.8 million in uncom-

pensated care last year, which included the amounts not covered by government-sponsored programs such as Medicare and Medicaid. This amount includes \$16.2 million for charity care and bad debts, incurred as we cared for many people without sufficient resources.

Adding to the medical staff

During the past year, Memorial Hospital added several new physicians to our highly respected medical staff, including specialists in family practice, general surgery, internal medicine, obstetrics/gynecology and ophthalmology.

One of our community's major employers

With an annual payroll of over \$40.9 million and more than 850 employees, Memorial Hospital is one of the largest employers in the region.

We thank you for choosing Memorial Hospital for your healthcare needs. With your support, together we can make an even greater hospital and a healthier community.
