

## HELPING TO MAKE THE TRI-STATE AREA HEALTHIER

At Valley View Medical Center, our goal is to deliver the best healthcare available in the Tri-State area of Arizona, Nevada and California as we seek to make our community healthier. With the help of dedicated physicians, employees, volunteers and board members, along with your continued support and encouragement, we continue to move forward.

Delivering quality healthcare is a big part of the contribution we make. But there are many other ways a hospital can make a positive impact on the community it serves. Here are a few of the other ways we are making a difference.

### Over \$10.2 million in capital improvements

In 2008, we invested over \$10.2 million in our facility which included technology replacement, information technology additions/updates, and routine facility upkeep and maintenance.

### Contributing to our local tax base

Last year, Valley View Medical Center paid over a million dollars in taxes that have helped to support our city, county and state. This included sales taxes as well as property taxes. These dollars help to support local schools, development of roads, recruitment of business and industry, and other needed services.

### Helping those in need

Valley View Medical Center provided over \$100.7 million in uncompensated care last year, which included the amounts not

covered by government-sponsored programs such as Medicare and Medicaid. This amount includes \$4.9 million for charity care and bad debts, incurred as we cared for many people without sufficient resources.

### Adding to the medical staff

During the past year, Valley View Medical Center added several new physicians to our highly respected medical staff, including specialists in family practice, internal medicine, neurology, orthopedic surgery and general surgery.

### One of our community's major employers

With an annual payroll of over \$20.9 million and more than 320 employees, Valley View Medical Center is one of the largest private employers in the region.

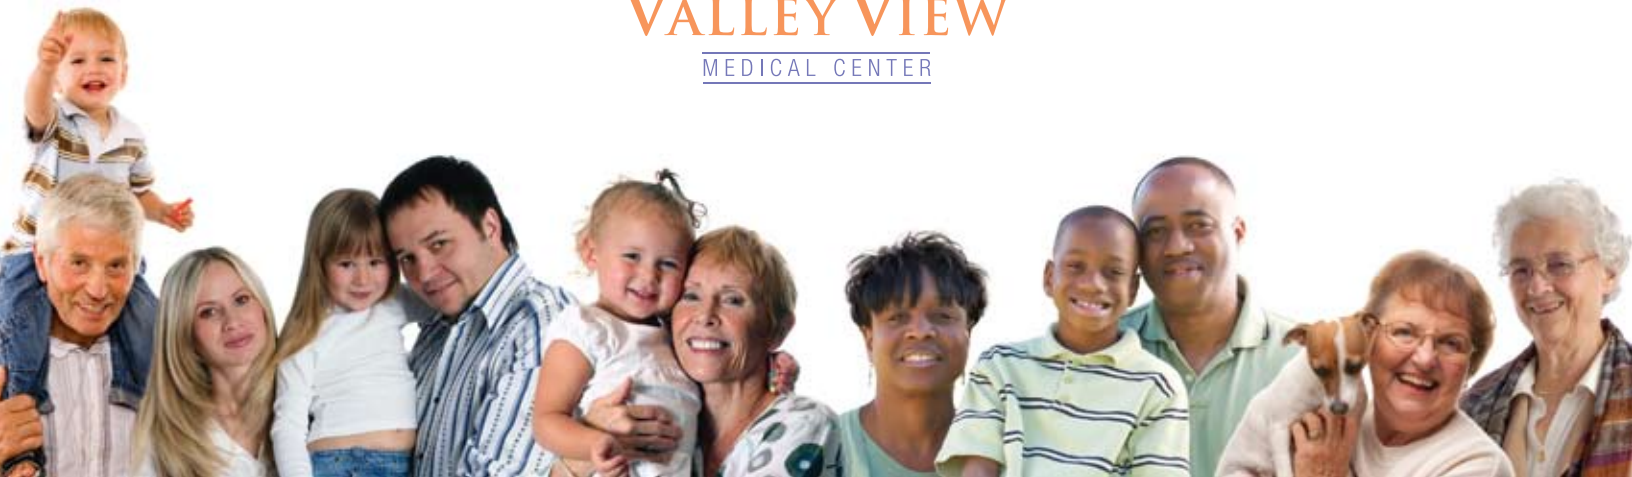

We thank you for choosing Valley View Medical Center for your healthcare needs. With your support, together we can make an even greater hospital and a healthier community.
